Hotfix Notification Maintenance

Exploring

Where does it fit in?

This program provides visibility over your site deployments and lets you control who receives hotfix notifications.

Things you can do in this program include:

- View who has conducted deployments on your site.
- Maintain who receives hotfix notifications.

Navigation

- This program is accessed from the **Program List** pane of the SYSPRO menu.

Program List > Administration > Installation and Hotfixes > Hotfix Notification Maintenance

Terminology used

Hotfix

A hotfix is the minimum software required to provide a solution for a specific problem experienced by one or more customers. These can also include any relevant dependencies.

SYSPRO provides hotfixes as a way of deploying software updates during the release of **SYSPRO 8**.

Types of hotfixes available include:

- **Mandatory Hotfix**
- **Optional Hotfix**
- **Diagnostic Hotfix**
- **Restricted Hotfix**
- **Withdrawn Hotfix**

Hotfixes are available from the **SYSPRO Installer** application.

Please refer to the **SYSPRO Hotfixes** reference guide for a detailed explanation.

Starting

Groups

You can restrict operator access to programs by assigning them to groups and applying access control against the group. This is configured using the **Operator Groups** program.
